

LineSelect® Model 8022 BNC Coaxial A/B/C/D Switch, Manual, Desktop

- Share any BNC peripherals that have BNC Coaxial Interface

INTRODUCTION

The **LineSelect®** Model 8022 BNC Coaxial A/B/C/D Switch allows the user to reroute data between either of four BNC interface devices to one COMMON device with the simple flip of a rotary selector switch. Both the center conductor and the shield of the coaxial interface are switched via break-before-make rotary switch.

The **LineSelect®** Model 8022 is packaged in a slim desktop style enclosure. It is ideal for use in coaxial network-device sharing or network-sharing applications.

FEATURES

- Ideal for switching 10 Base-T BNC Network devices.
- Allows quick connection to any one of four devices from the COMMON port.
- Share one controller with four workstations.
- Share one terminal with four controllers.
- High quality, sealed switch with self wiping precious metal contacts.
- Eliminates the need to plug and unplug cables.
- **Switches both the shield and center conductor of the coaxial interface via break-before-make rotary switch.**
- The switch ports are transparent to all data.
- Manual operation via front panel rotary switch.
- No external power required.
- Attractive anodized black box packaging provides EMI/RFI shielding.
- Lifetime warranty against manufacturing defects.
- **Custom length BNC Coaxial cables available for your switch installation.**
