LineSelect® Model 8212 Twelve-Position DB25 RS232 Switch, Desktop, Manual Operation

- Quickly, Easily, Reliably Select Any One of Twelve RS232 Devices.
- Increases network efficiency by facilitating sharing of peripherals!
- Field Proven, Highly Reliable!

INTRODUCTION

The **LineSelect®** Model 8212 Twelve-Position DB25 RS232 Switch allows the user the capability of sharing a DB25 interface device connected to the "COMMON" port among twelve other devices connected to the ports labeled 1 thru 12.

FEATURES:

- Allows quick connection to any one of twelve DB25 RS232 devices from one COMMON device.
- Manual operation via front-panel rotary switch.
- High quality sealed switch with self-wiping low impedance contacts.
- Switches pins 1 through 12 of the DB25 Interface.
- Transparent to data speed and format.
- Eliminates the need to plug and unplug cables.
- No external power required.
- Improves computer network efficiency by allowing sharing of peripherals.
- Attractive anodized black box packaging provides EMI/RFI shielding.
- Custom length DB25 cables available for your switch installation.
- **Lifetime guarantee against manufacturing defects.**
