

LineSelect® Model 9061 RJ45 2-Pair 10 Base-T A/B Switch Module

- Signals paired for 10Base-T compliance (1,2)(3,6)
- Enables access to two networks from one computer or workstation.

INTRODUCTION

The **LineSelect®** Model 9061 switch module allows the user to switch devices connected to the COMMON port between devices connected to ports A or B with a simple push of a button. The pushbutton face changes color to indicate A or B switch status. The **LineSelect®** Model 9061 is an open frame module designed to be installed in the Model 9025 Rack. The Model 9025 Rack accommodates up to 8 **LineSelect®** Model 9061's. The Model 9025 is a 3U, full rack size chassis designed to fit in a standard 19" rack.

FEATURES:

- Manually select switch position from front panel rotary switch.
- Four pins of the RJ45 interface are switched, 2-pair (1,2)(3,6).
- High quality sealed switch with self-wiping precious metal contacts.
- Attractive anodized all aluminum packaging provides EMI/RFI shielding.
- No external power required.
- **Up to eight Model 9061 Switch Modules can be housed in one Model 9025 Rack Chassis.**
- **Add more modules having various switch functions as your system grows.**
- **Municipalities, schools, government: The Model 9061 is on GSA Schedule!**
