

## LineSelect® Model 9094 DB9 A/B/C Switch, Manual, Rackmount

- Switch ANY device having a DB9 interface, since all nine pins are switched.

### INTRODUCTION

The **LineSelect®** Model 9094 DB9 A/B/C Switch allows the user to access three DB9 devices connected to its A, B, and C ports with one DB9 device connected to its COMMON port. The unit is manually operated, requiring no power. Port selection is quick and easy via a front panel rotary switch. The **LineSelect®** Model 9094 is enclosed in a 1U, full rack size, all metal chassis designed to provide EMI/RFI shielding and fit in a standard 19" rack.

### FEATURES:

- Allows quick connection to any one of three DB9 devices from one COMMON device.
- Manual operation via front-panel rotary switch.
- High quality sealed switch with self-wiping low impedance contacts.
- The ports are transparent to all data.
- All 9 pins of the DB9 interface are switched via a break-before-make rotary switch.
- **A, B, and C port connectors - DB9 (female).**
- **COMMON port connector - DB9 (male).**
- Improves computer network efficiency by allowing sharing of peripherals.
- Eliminates the need to plug and unplug cables.
- No external power required.
- Attractive all metal black box packaging provides EMI/RFI shielding.
- Custom length DB9 cables available for your switch installation.
- Lifetime guarantee against manufacturing defects.

### SPECIFICATIONS:
