

LineSelect® Model 9444 RJ45 Cat5e 3-Channel A/B Switch, Manual, Simultaneous Switching, Rackmount

▪ **Certified for Cat5e Compliance.**

INTRODUCTION

The LineSelect® Model 9444 3-Channel RJ45 A/B Switch allows devices connected to "COMMON" port of each channel to access the "A" or "B" port of each channel. All channels are switched simultaneously. The LineSelect® Model 9444 switch is enclosed in a standard 1U, full rack size, all metal black chassis designed to provide EMI/RFI shielding. Four pins of each RJ45 T1 channels are switched (paired, pins 1, 2 and pins 4, 5).

FEATURES:

- **Manually switches all 3 channels to either of the A/B positions simultaneously.**
- Each channel allows quick connection to any one of two devices from one COMMON device.
- Rated for 10/100/1000 Base-T networks (Up to Cat 5e).
- Certified for Cat 5e compliance.
- All 8 pins of the RJ45 interface are switched via break-before-make rotary switch.
- The switch ports are transparent to all data.
- Simultaneous Channel Control via one knob located on the front panel, one knob switches all channels simultaneously.
- High quality sealed switch with self-wiping precious metal contacts.
- Manually operated. No power required.
- Attractive all metal black box packaging provides EMI/RFI shielding.
- Lifetime warranty against manufacturing defects.
- Custom length Cat5e cables available for your switch installation for improved system performance.
